

Find your way with Carbon Map

Discover insights. Forge a strategy. Unlock potential.

With the upcoming introduction of legislation and increasing corporate anxiety, Australian company directors are prioritising their focus to net zero, sustainability and climate governance disclosures.

80%

are concerned about the impact of climate change as a material business risk*

60%

want their boards to pay more attention to climate governance*

80%

of unlisted companies and their boards do not have climate governance relevant skills and expertise*

75%

of boards for unlisted companies do not have a transition plan and climate targets*

Diagnose problems. Track metrics. Build resilience.

Many companies find themselves overwhelmed by the growing environmental challenges and shifting regulations. However, you don't have to be paralysed by indecision or uncertainty. The time for action is now, and the Federal Government's new reporting requirements demand precise and transparent sustainability disclosures.

Introducing Carbon Map – your essential tool for gaining a comprehensive understanding of your company's ESG status.

With Carbon Map, you can swiftly identify areas for improvement and develop a clear, actionable strategy that will guide your company confidently toward its sustainability goals.

At C6 ESG, we combine our deep expertise in business and data analytics to thoroughly assess your unique situation. We possess the tools, experience, and insights needed to simplify the complexities you face, offering a solution precisely tailored to your needs.

Unlock potential

Boost profitability

Knowledge is power. Carbon Map's deep dive into your data can unlock great potential for ESG improvements to the bottom line.

Increase credibility

Carbon Map delivers a robust pathway to developing the evidence stakeholders need to prove your ESG credentials and claims in the marketplace.

Create value

A truly sustainable business is worth more than an average ESG performer. Build value alongside sustainability.

**Drive innovation. Create value.
Boost profitability.**

In the complex world of decarbonisation, it is clear that the vast majority of business leaders can see the importance of taking action on climate governance and their company's sustainability, but lack the skills and expertise to plan their future direction.

C6 ESG demystifies the complexity and helps you plan your journey to compliance with a structured approach, which will help you unlock your potential and continue your journey to sustainability.
